

## Annex C

### ASMI Application Form

#### For WSH Innovation Award Application Only

*Please attach this form in addition to the "Application Guideline"*

Please select the category that best applies to your company	Tick Accordingly
<b>Sponsoring Shipyard</b> <small>(ST Engineering Marine, Seatrium, Hanwha Offshore, ASL Shipyard, PaxOcean)</small>	
<b>Non-sponsoring Shipyard</b>	
<b>Maintenance, Repair &amp; Overhaul (MRO)</b>	
<b>Traders &amp; Integrators</b> <small>(including but not limited to AI solution providers)</small>	

Over the past years, the ASMI WSH Innovation Awards typically see the top three entries coming from sponsoring shipyards in our M&OE sector.

This year, to encourage broader participation across the sector and different business activities, we are pleased to introduce **the following new categories that companies can choose to be from**

1. **Sponsoring shipyards,**
2. **Non-sponsoring shipyards,**
3. **Maintenance, Repair & Overhaul (MRO); and**
4. **Traders & integrators**

**For each category, there will be at least a winner to be recognised at the M&OE sectorial level by ASMI.**

The process for submission to the National WSH Awards remains unchanged where companies with the highest points in totality will be nominated to compete at the national level across multiple sectors.

ASMI's panel of judges will review all submissions and **shortlist the top three entries across all categories for national evaluation.**

## Categories & Overview of Judging Phase
